

I hope all is well. Lexie is doing great and my husband and I are so happy. She is incredibly friendly, sweet, playful and will snuggle up to anyone who comes into our house! I included a pic of her in her new bed :)
Thank you so much again,
Samantha

Daisy is part of the family... my daughter calls her her sister and she always hangs out with us. In other words she's not a scaredy cat. Her coat is fluffy and soft. Her eyes have turned mostly brown and she's extremely playful.
Best wishes and happy holidays

You remembered right! We named her Ali for Alabama. We are so in love with Ali. She's everything we hoped for and more, plus you and your mom were such a pleasure to work with :) The first picture is the wallpaper on my phone and iPad!
Happy Holidays! Cheri

1 year update:

Ali is great...still as dreamy as ever! In fact, she had her yearly checkup with the vet this morning and the vet said she's perfect :) Hope all is well with you.
Take care,
Cheri

Lexie is doing great, we love her SO SO much! We really can't say enough good things about her. She is the friendliest and most loving cat we have ever met (even our friends and family say it too!). She is also VERY smart! She cuddles with everyone who comes into our house and they all fall in love with her! She is getting so big and fluffy. I have attached a few recent pictures. We would be more than happy to be a reference for you.

One of the things we taught her is "treat" and she will run to us for a treat like a dog would! She also comes whenever we call her name. She is so obedient like a dog! Very funny one of her siblings is also like that. You certainly raised a smart litter. :)

Best,
Samantha

We love her so much!! Thank you!
The Jones family

Here are a few pictures....they're so great. You guys did an amazing job. Nicky was bonding immediately and Mali fell asleep in my arms this afternoon, purring her little head off, finally! Everyone's eating, drinking, and using the litter box like pros.

Debra

update:

Thought you might enjoy an updated picture of the dynamic duo. Both doing great and of course the loves of our lives. The staff at the vet's office didn't want to let them leave; they all came out and said they were the cutest, sweetest kittens they've ever seen. Which, of course, they are :)

They're doing very well; eating, playing, exploring life. I can't thank you enough for being the best breeder we could have worked with.

Hope things are good on your end. Happy and healthy to you and your family.

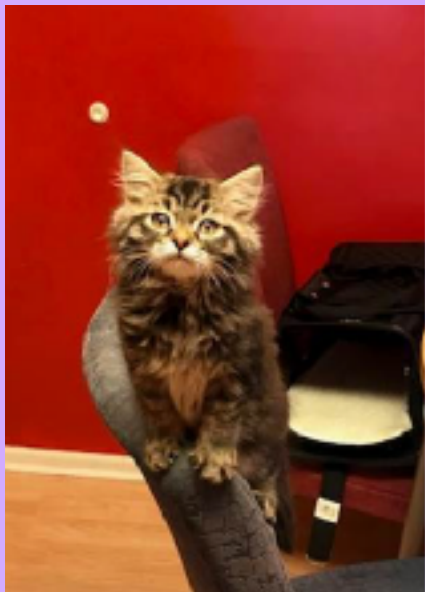

Hope you're well and good today. Just giving an update on the boy!!! J He's doing fantastic and couldn't be a happier cat. But he's curious and into everything!! I can't pull anything by him. Watches me like a hawk.

We go back to the Vet for a return visit next Thursday. But he's gotten just a tad bigger since you last saw him two weeks ago. One of my friends got him a kitty perch yesterday so see attached.

The girls at the local coffee shop I go to in the morning wanted to meet him, so I took him over there this morning and he was in his glory. They were all hugging and making a big fuss over him. He was just soaking it in and purring. Big kitty smile on his face!!!!

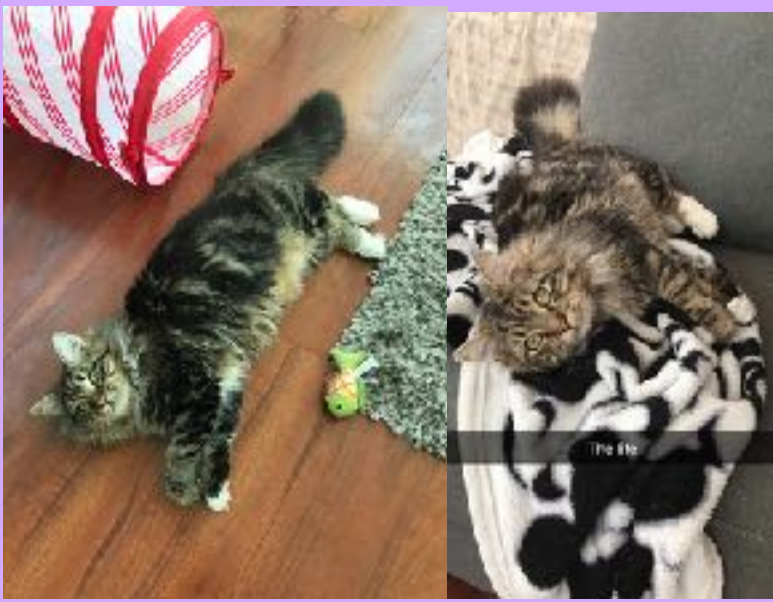

Rich

Hi!

My little rascals are definitely in their mischievous phase. Silas went from being underweight and tiny to almost double the size of Zara. He's very much a lazy ham who I catch lounging around mostly on my rugs or floor. He does edge out his sister when it comes to getting his paws into everything. Zara who grew into this beautiful beautiful golden girl likes it higher on her perch or on the couch.

Anna

Hi,

I have some more update photos since, in the last month, I have gotten another kitten. They have certainly developed a sibling like bond. Lots of craziness around here.

Magnus keeps growing bigger. It always amazes me how much bigger he is compared to other cats, but he's also a big baby and loves to cuddle.

The kitten is doing wonderfully. We named her Whiskey. She is getting along great with Hobbes. Here are a couple of pictures of her. She is very playful, full of energy, and a delight to have around. She is sometimes mischievous, and gives Hobbes some trouble, but it is all in good fun. She has been a great addition to our family.

Hi,

So nice to hear from you! I would be so happy to give a reference. Just for your own information, when our vet first examined them, she was actually surprised to see that they tested negative for everything she tested them for. She said that's almost unheard of in a pure breed.

My kittens are so happy and healthy and sweet as can be. I was planning to send you a picture on their birthday.

Yes, please give me an opportunity to glow about my kittens and to let any potential customers you have know about the wonderful experience I have and am still having with you and your lovely mom.

Debra

Chico is doing great! I am so happy with him and my one year old son is completely obsessed with him. The whole allergies thing ended up just being a false alarm and now all is well. I didn't change his name because I love the fact he knows it so well and I didn't want to confuse him.

Sohab

We are so happy with our little Roku ❤️ He has completely stolen our hearts. Here is a picture of him settling in. Thank you again.

All the best to you.

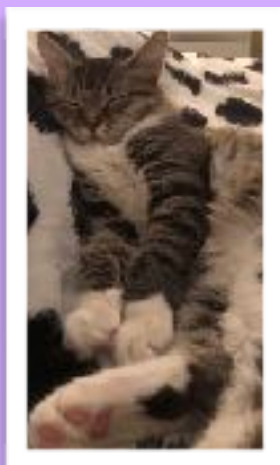

Sincerely,
E and A

Just wanted to let you know my little girl is doing very well :) She is so sweet and loving. And as you said, she is so smart and curious. She loves to play and she is eating a lot. Thank you again for everything. I will send pictures as she grows. I attached one here. She really is so beautiful. Such a pretty girl.

We have been calling her Sasha :)
Rebecca

update:
Hope all is well, just wanted to send you some pictures of Sasha getting bigger she is a big girl :) we love her so much.
Rebecca

Congratulations on your decision to get a Siberian. I had one for thirteen years and when he passed away I did a lot of research for breeders. I didn't have that option with my first cat because there weren't as many breeders around then.

I was very thorough in my research this time and I'm very glad to have found Kirigami. They are totally legit and they raise very even tempered, healthy cats.

I visited them when the kittens were about a month old and the environment was clean, spacious and I was able to witness the caring interaction with the family. It made me secure in my decision to go forward.

When I brought the kittens to the vet for the first time, she was surprised that there were no viruses present. She said that was rare in pure breeds.

I've had my sweeties for about a year and a half and there is absolutely no aggression, they're very loving and sweet cats.

As far as allergies, I grew up having cats all my life and never spent a day without a tissue in my hand. Sometimes my allergies became so severe I would miss a day of work.

I have never had a problem with any of my Siberians. There is no claim that they're hyper allergenic, but the thinking is that many people with allergies are able to tolerate the Siberian because they lack the enzyme that creates the allergens in the dander.

You can visit the breeder to see if you have a reaction if you're concerned.

I hope that was helpful and I wish you all the luck in the world. They're wonderful breeders.

Debra

Hi again, Marie,

One thing that I forgot to mention is that Kirigami doesn't neuter the kittens before you bring them home. Many breeders do neuter them because it's a way for them to ensure that the breed stays pure; that you won't mix them with another breed of cat. However, it's not in the cat's best interest, health-wise to be neutered before five or six months of age.

Kirigami (and other good breeders) are very particular about who they sell their stock to because they do have an interest in keeping the breed pure, but don't want to risk the cats' health by neutering them before they're ready.

That was an important part of my decision to go with Kirigami.

Again, best of luck with your new kittens, where ever you do decide to get them.

I hope this was useful.

Debra

Hi, I just wanted to let you know that "Belle" is doing great! She is extremely affectionate and loving , as well as curious, adventurous and playful. Belle immediately became a part of our family and is very loved 💕!! Allison

Just wanted to let you know how well Mimsy is settling in! She's super sweet and cuddly and has had so much fun exploring her new room. She had her first visit to our vet today although she wasn't old enough for her next round of vaccines; she's going back on the 10th for them. She's eating, drinking, toileting, playing, and seems to be settling in just fine!! She's such a joy, thanks so much!
Jane

Just wanted to let you know that we are totally in love with her!

She did just fine on the car ride home and has spent the last few hours exploring my daughter Ginger's room and meeting the family and only just now finally was so tired she had to take a nap.

We think we're going to call her Mishka!
Kathy

We wanted to share some recent pictures of Mishka with you (below) and let you know that everything is going so well. She's growing so quickly!

We love her dearly! She is so friendly and comfortable with everyone in the family. She will curl up and nap with any of us - and one of her favorite recent discoveries was that Sam's laptop was a great warm spot! She is incredibly playful and has so much energy - it's really such a joy having her with us!

Kathy

Oh my gosh! With all the excitement of taking the kitties, I can't believe we left the folder!!!!
Thank you for scanning and sending everything.

Can you believe that we got home at 8:00 PM!!!! A five hour ride home. Traffic was snarled everywhere.

But the girls did fabulous! Twice we stopped to let them use the litter box but they did not go until we arrived home. What good little travelers they are. I think we were more cranky with all the traffic. They only cried a few times but just for a few minutes.

Since we got home we have been playing with them in "their room" which they are absolutely enjoying. They are so friendly and playful - with us and with each other. We were amazed at how quickly they adapted. And of course, they were starving! They are good eaters.

Saturday we will be taking them to our vet and I will advise you of the outcome afterwards.

We have chosen their names.... Chloe and Meesha. We think the names are a good fit.

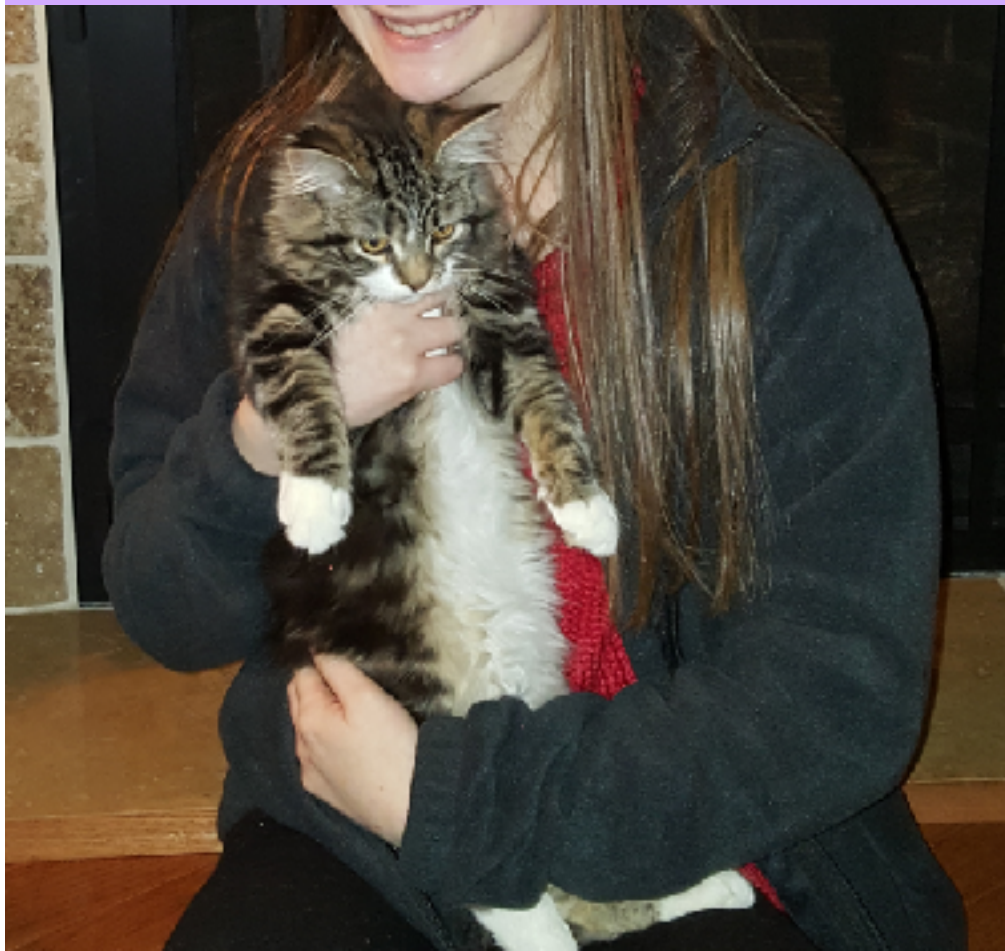

Thank you again for sending the documents.
Take care.
Diane

Happy New Year from our family to yours! Sadie has been pure joy and had truly bonded with Courtney. A curious little snuggler 😊.

Our best to all of you for 2019!

Bill and family

Wanted to send you a few pictures of Watson. He brings us a lot of laughs. We can't imagine what it would be like without him. Thanks so much!
Lisa

Belle is wonderful. She is just a fun and loving cat.
Here is a recent photo.
If the girl is taken can we put a deposit and get first pick of the next litter?

Thank you
Dan

Just wanted to let you know that Ivy's first day and night at home were lovely. She was so quick to warm up to us. She is so cuddly and playful and is just the sweetest kitten anyone has ever met. She is eating and using her litter box just fine. Thank you again for our sweet girl! Here's some pics of her cozying up.

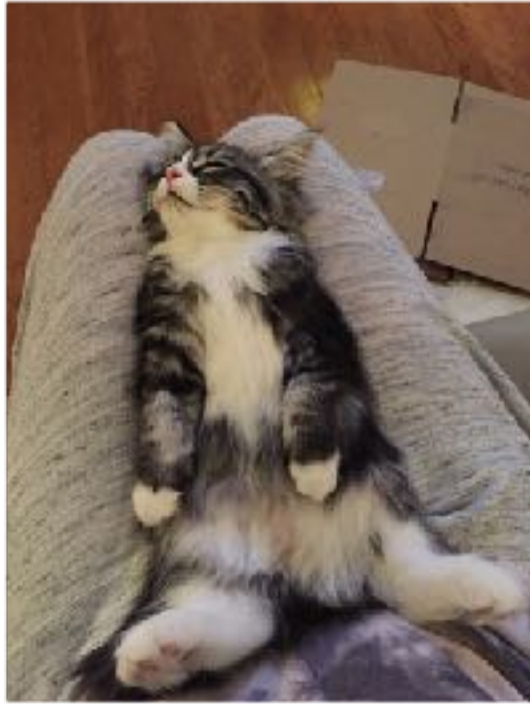

Katelyn

UPDATE:

Hi!

Ivy is loving her new home and growing before our eyes! She loves to play with her fishing rod and chase the little fish around the house. She cuddles up next to us every chance she gets and is eating dry and wet food. She is the best kitten ever. We are so in love with her!

Hi ,

Leo is such a playful, animated loving cat who is right at home! He has adjusted so well- eating, drinking using his box, playing but best of all is so affectionate with us already! We are so very happy and I want to thank you so much!

Let's stay in touch!

Tiffany
